The abstract of the disclosure is objected to because it contains the legal word, "comprises". Correction is required. See MPEP § 608.01(b).

16

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 3-4, the phrase, " that is linearly polarized along a display polarizing axis" is not understood. It is unclear if the display is so polarized or the film. Clarification is requested. Also, see claim 12 for similar problem.

17

Claims 1-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

18

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Moseley et al(6124920) is cited of interest to show the state of the art.
